Sample Water Bill

This example bill is for a 5/8" water meter. On the sample bill 29 units or 2900 cubic feet of water was used over a three-month period. The date of 12/15/02 is not necessarily the date the meter was read or estimated but an average for the month.

- E The bill was estimated.
- WA The charge for water based on the number of units used.
- GM General Maintenance charged is based on the size of the meter or meters on a premise.
- SM Sewage Station Maintenance is a set amount on all water bills. This money goes to the Sanitary District that handles the sewage from the City.
- WT Waste Treatment is a direct ratio based on the units of water used at each premise.
- IW Industrial Waste is set by Detroit Water and Sewage Department based on the size water meter at the commercial account.
